Profile

I am a currently studying a masters in Architectural Conservation at Edinburgh University. I am competent in AutoCAD, Revit 3D modelling, Project, and Microsoft programs such as word and excel. I enjoy the technical aspects involved in structural mechanics, fire safety and building measurement. I am very familiar with building contracts, building warrants and other statutory legislation. I have firsthand experience of building sites, having lived through a domestic extension recently and assisting with the practicalities of the reinforced concrete floor of the basement. I enjoy finding design solutions by using building regulations, which I have downloaded on to my tablet.

I am a conscientious and enthusiastic individual with an outgoing personality. I am a trustworthy individual who has the ability to take responsibility for her own workload whilst being a good team player. Reliable with excellent time keeping skills.
